How to Read This Sample COA

如何读懂这份饲料添加剂 COA 示例

Purpose / 用途: This page teaches importers and feed buyers which COA fields to verify. It does not validate a real product. / 本页帮助进口商和饲料采购商了解应核查的 COA 字段，但不代表对任何真实产品的验证。

Buyer Review Checklist / 采购商核查表

Field / 字段	What to Verify / 应核查内容	Warning Signs / 风险信号
Product identity 产品身份	Name, grade and specification match the quotation, label and purchase order. 名称、等级和规格应与报价单、标签及采购订单一致。	Generic name, missing grade or inconsistent description. 名称笼统、缺少等级或描述不一致。
Batch traceability 批次追溯	Batch number links the COA to the bag label and production record. 批号应能对应包装标签和生产记录。	Same COA reused across unrelated shipments; altered batch text. 不同货物重复使用同一报告，或批号有修改痕迹。
Specification vs. result 标准与结果	Every measured result is compared with a clearly stated acceptance limit. 每项结果都应有明确判定标准。	Results shown without limits, units or test method. 只有结果，没有限值、单位或方法。
Method and laboratory 方法与实验室	Method is appropriate and the issuing laboratory or internal QC function is identifiable. 方法适用，签发实验室或质检部门可识别。	Unclear method, no issuer or inconsistent terminology. 方法不明、无签发主体或术语混乱。
Dates and shelf life 日期与有效期	Manufacturing, test and expiry dates are logical and consistent with the label. 生产、检测和有效期应符合逻辑并与标签一致。	Testing predates production, expired report or altered dates. 检测早于生产、报告过期或日期有修改。
Authorization 授权信息	Report has a responsible reviewer, approval status and controlled document identity. 报告应有审核人、批准状态及受控文件编号。	Blank approval, copied signature or no document control. 批准空缺、签名疑似复制或无文件控制。
